

IDRIS TEMITOPE BABALOLA

Frontend Developer

EXPERIENCE

October
2022 -
Current

MANDILLAS

Frontend Developer (React Js)

- Collaborated with a startup e-commerce platform to design and develop a user-friendly interface that drove increased traffic to the website.
- Designed visually stunning user, seller, and admin dashboards, resulting in improved customer engagement and satisfaction.
- Integrated various APIs into the platform to optimize the buying and selling process, ensuring a seamless and efficient user experience.
- Worked independently to develop and implement the user, seller, and admin dashboards, showcasing strong design and technical skills.

Dec 2022 -
Apr 2023

ATOOVIS

Frontend Developer (React Js & Redux)

- Worked with a startup E-commerce platform that grew over 100 active users within one month
- Collaborated closely with web designers and the backend team to implement the buyers API, resulting in increased user engagement and website traffic.
- Played a key role in making API calls to optimize the buying and selling process, demonstrating strong technical expertise in API development and integration.

PERSONAL & VOLUNTEER PROJECTS

October
2022 -
Current

Blog App

Frontend Developer (React Js, Redux React Testing Library & Jest)

- Currently working on implementing a chat feature for the blog app using Socket.IO, allowing users to communicate in real-time and further enhancing the user experience.
- Developed a successful blog application in collaboration with a backend developer and a product designer, which garnered 10 likes on Twitter within 24 hours of launch.
- Created and implemented a responsive design strategy to ensure optimal viewing experience across various devices.
- Conducted code reviews and provided feedback to ensure high-quality code was delivered to the production environment.
- Developed an efficient and user-friendly content management system (CMS) that allowed content creators to easily create and publish blog posts.
- Employed industry-leading React best practices to minimize bugs and enhance user interactions, resulting in two recommendations from satisfied clients.
- Utilized React Testing Library and Jest to create comprehensive unit and integration tests for the web application to ensure a reliable and consistent functionality.
- Implemented SEO strategies to improve search engine rankings and increase organic traffic to the blog application.
